Billing Policy and Fee Schedule

This policy is designed to provide low-cost or free medical services to patients who have no means, or limited means, to pay for their medical services (Uninsured or Underinsured). This policy does not apply to those services or equipment that are purchased from external providers and vendors, including reference laboratory testing, medications from the pharmacy (either prescription or over-the-counter), and other such services.

All pregnancy tests (urine and/or blood) and obstetrical ultrasounds provided at Obria Medical Clinics of Iowa are free. Pre-conception testing is not included in any pregnancy-related 'free' services.

Obria does bill for sexually transmitted infection (STI) testing and wellness exams. Patients can choose to pay for their services out-of-pocket or have Obria submit a claim to their insurance company.

Obria will provide discounts without regard to age, gender, race, sexual orientation, creed, religion, disability, national origin, etc.
